### **Old Business**

**William Toreke presented two versions of a rule to modify the penalty for a double green infraction. After presenting both versions and discussing them the committee decided to accept Version B as a proposal.**

**Version A (Automatic 1-lap penalty):**

... Any section of the trail marked by a pair of double over-and under GREEN arrows on both sides of the trail indicates the competitors must ride between the two sets of arrows and cannot ride outside either pair of arrows. Any time a rider leaves the trail as defined above, (either by line picking, overshooting turns, failing to pass between GREEN arrows, emergency, etc.) that rider must return to the trail and re-enter at the point they left. Failure to do so is a rule violation. Any such violation reported to the FTR Referee, Associate Referee, or Scorekeeper prior to the end of the protest period, in writing on official DQ/penalty form available at FTR trailer, shall result in a minimum of a one-lap penalty (per violation). Penalty shall be enforced by deleting the rider's final completed lap for the race. A more severe penalty of Disqualification may be assessed, in accordance with Article XIV of the FTR Constitution, if there is evidence that the violation was intentional, or constituted a significant safety hazard. A violation of this section does not automatically constitute blatant course cutting as discussed in Chapter VIII, section B-1a.
