

Safer to Race Plan

As of 8/3/20

Mission Statement

- To return to racing safely while adhering to CDC and County guidelines in conjunction with our Land Owners Requirements.

Admission Process

- Upon entry, you will be greeted at the gate by volunteers wearing personal protective equipment (PPE), i.e., facemask and/or face shield.
- Each vehicle will be either given a separate liability release/waiver for the occupants to sign and return to staff or occupants of vehicle shall provide an already filled out liability release/waiver. No clip boards will be used and only one release sheet will be used per vehicle limiting the transfer of paper car to car.
- Riders who did not pre-enter will also be given an entry form if they do not already have one, eliminating the community forms table at sign up. All riders will come to sign up with their race form already filled out.
- All membership forms should also be filled out ahead of time.

Admission Process cont.

- Asking all to bring their own pen to complete the release and race entry forms.
- Asking all to have exact cash for the \$20 per car gate fee.
- Your entry to the property will be a wristband. Please secure it to your own wrist and help your kids with theirs.
- Park no less than 10 feet apart from your neighbor on all sides.
- Help us limit the number of people onsite overnight. If you race Saturday, please return home as soon as possible after your race.
- Please remain in your pit area unless going to/from registration, concessions ,Tech or the racetrack. Don't roam or visit your neighbors to maximize social distancing.

Registration Process

- Entry fees can be paid by credit card or exact cash. Chip readers will be positioned so that riders can swipe their own credit card minimizing multiple touches to the cards and cash exchanges.
- Please dispose of your trash in our dumpster on your way home.
- We recommend that everyone attending registration wear a face covering to protect our volunteers.
- We ask that only the rider, or in the event of a youth rider their parent, attend registration. Youth riders should not attend registration.
- Pre-entered riders must check-in at the pre-registration window to receive their race armbands. Advance registration is strongly encouraged to minimize time in the registration area.

Registration Process cont.

- All post entry riders can register at club registration. Must bring your completed entry form filled out ahead of entering the registration area and any minor release cards or forms filled out. No community form table will be provided.
- Volunteers will be seated behind protective barriers for your protection and theirs.
- Standing positions will be marked 6 feet apart for social distancing. Please stand apart.

Race Procedures

- Only 1 rider and 1 mechanic on the Start Line. Due to social distancing concerns in this area mechanics will be required to wear facemasks on the Start Line. No others will be permitted on the starting grid.
- Riders must ride alone and may not transport anyone on their bikes, unless they are members of the same household who followed the stay-at-home order together.
- Riders wearing helmets are not required to wear a facemask.
- The gas stop will be lengthened to provide for better social distancing however face coverings are recommended in this area.

Health Considerations

- Social distancing is key. That means standing at least 6 feet apart from one another.
- Family members who have quarantined together are not expected to social distance from one another.
- Wear a face cover when you are unable to social distance or stand 6 feet apart. Bring your own mask. Just use common sense.
- Wash your hands often and use hand sanitizer. We will have hand sanitizer available.
- Please do not offer to shake hands with anyone.

Health Considerations cont.

- For persons feeling ill: If you think you have a fever or start to feel ill, please do not go to the EMS Station. You should immediately leave the event and go home.
- The CDC recommends persons who are sick with fever or cough, the elderly or those at high risk, to stay home. We do too. Please do not attend our event if this is you.
- Please take your own temperature before you leave home. If you have a temperature of at least 100.4, you have a fever and should stay home.
- If you know you have had contact with someone diagnosed with having COVID-19 in the last 14 days, or you yourself have had COVID-19 in the last 30 days, please stay home.
- Our onsite HEIC (Health Executive In-Charge) is Donny Richardson Contact him if you have any concerns over the weekend.
